

**Our mission:**

- To provide a location where users, suppliers and service providers can find and share information on-line
- To provide a facility for members to discuss day-to-day issues and find solutions
- To provide an opportunity for people to post and download industry white papers
- To become the first place to look for industry related information

**What will be available:**

- |                     |                               |
|---------------------|-------------------------------|
| • Product Directory | • User Forums                 |
| • Industry News     | • Classified Adverts          |
| • Product News      | • Career Opportunities        |
| • White Papers      | • Conference News – SPOK 2005 |

**What we need:**

**Industry contributors**

- If you have experience in this industry and would like to share it with others you need to let us know

**Content**

- White papers
- Industrial articles
- Product reviews

**Feedback**

- This site is designed to support the you as operators of standby and back-up power. To do this we need your feedback. Let us know if there are features you would like to see, if there are other websites you think we should be linking to.
